

Day 03 - Activities: Querying Attribute Data and Spatial Selection

Lecture (in class):

- Lecture 3: Attribute Query and Spatial Selection (PDF)
- Demonstration: Construct attribute queries

Lab (in class):

- Lab 3: [Explore your data](#)
- Case Study: [Are there suitable sites for distribution center?](#)
 - Story Map: [Grocery Distribution Center Location Analysis](#)

Reading:

- ArcGIS Pro Documentation:
 - [Write a query in the query builder](#)
 - [Select features using attributes](#)
 - [Select features by location](#)
- Info-Sheet:
 - Field Data Types
- GIS - An Introduction (McHaffie and Hwang, 2019)
 - [Chapter 6: Data Models](#) (pp 144-160)

Research:

- Story map: [How to smart map](#)
- Blog article: [How to color your map by attribute](#)

ArcGIS Online Lesson (optional):

- Case Study: [Are there suitable sites for distribution center?](#) (same as above, but in ArcGIS Online)
