

Day 01-Labs (1a-1c): Introduction to ArcGIS Pro

Lab 1a: [Introducing ArcGIS Pro](#) (30 minutes)

Goals: Explore the main components of the ArcGIS Pro user interface—the ribbon, views, and panes—and their interactions.

Complete the following:

- [Tutorial summary](#)
- [Open the project](#)
- [Use tools on the ribbon](#)
- [Open and dock panes](#)
- [Explore views](#)
- [Work with contextual tabs](#)
- [Switch to dark theme](#)

Lab 1b: [Create a project](#) (15 minutes)

Goals: Explore the main components of the ArcGIS Pro user interface—the ribbon, views, and panes—and their interactions.

Complete the following:

- [Tutorial summary](#)
- [Create a new project](#)
- [Locate New Zealand on the map](#)
- [Work with the map and its layers](#)
- [Create a 3D scene](#)
- [Explore the Catalog pane](#)

Lab 1c: [Navigate maps and scenes](#) (20 minutes)

Goals: Navigate a map and a scene using the Explore tool and the navigator. Link views so your map and scene pan, zoom, and rotate together.

Complete the following:

- [Tutorial summary](#)
- [Open the project](#)
- [Navigate a 2D map](#)
- [Navigate a 3D scene](#)
- [Link views](#)
